

AGILE RELEASE TRAINS RESPONSIBILITY WHEELS

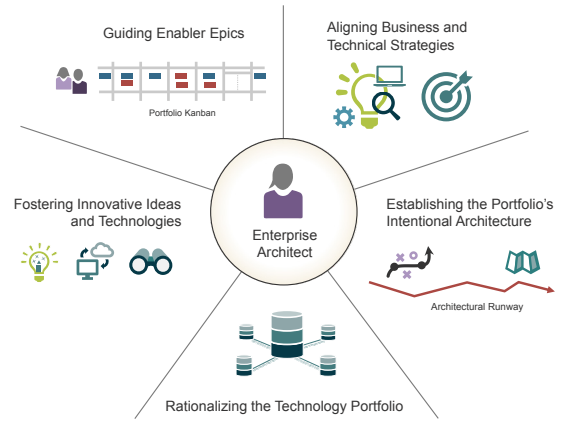

EPIC OWNERS

The Epic Owner is responsible for coordinating epics through the portfolio Kanban system.

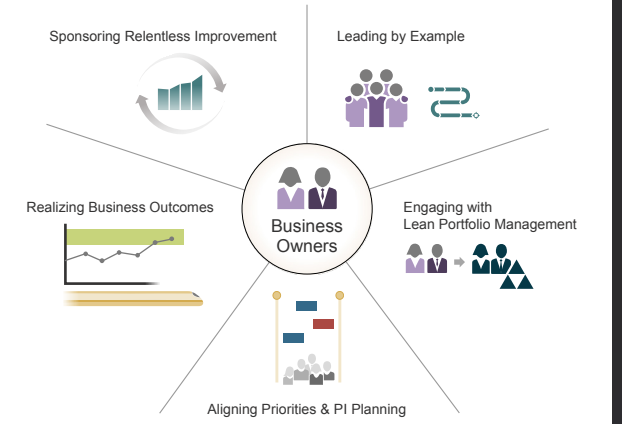

ENTERPRISE ARCHITECTS

The Enterprise Architect is responsible for establishing the portfolio's technology vision, strategy, and roadmap.

BUSINESS OWNERS

Business Owners (BOs) are key ART stakeholders who have the primary business and technical responsibility for return on investment (ROI), governance, and compliance. Business Owners are critical stakeholders who evaluate fitness for use and actively participate in ART events and solution development.

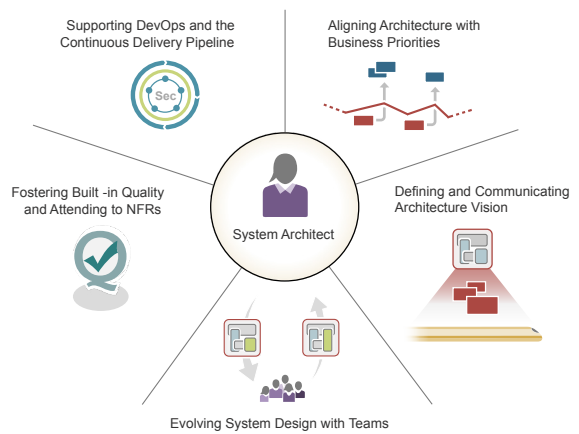

PRODUCT MANAGEMENT

Product Management is the function responsible for defining desirable, viable, feasible, and sustainable solutions that meet customer needs and supporting development across the product life cycle.

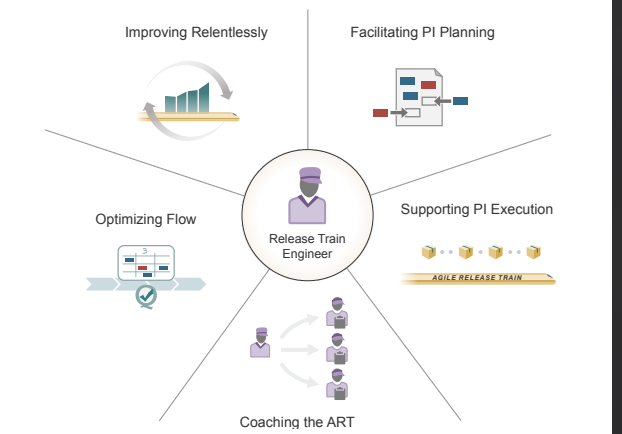

SYSTEM ARCHITECT

The System Architect is responsible for defining and communicating a shared technical and architectural vision for the solutions developed by an ART.

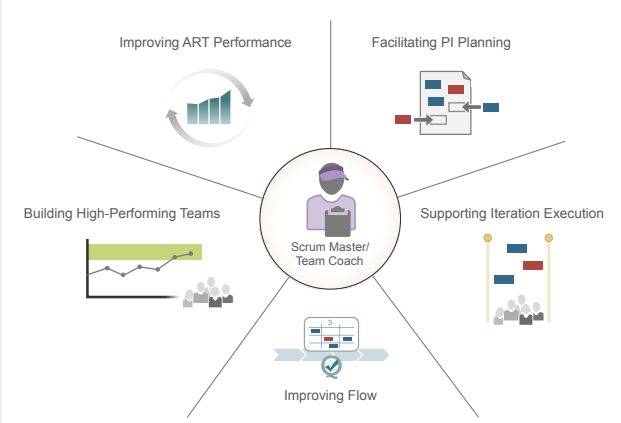

RELEASE TRAIN ENGINEER

The Release Train Engineer (RTE) is a servant leader and ART coach who facilitates ART events and processes, and supports teams in delivering value. They communicate with stakeholders, escalate impediments, help manage risk, and drive relentless improvement.

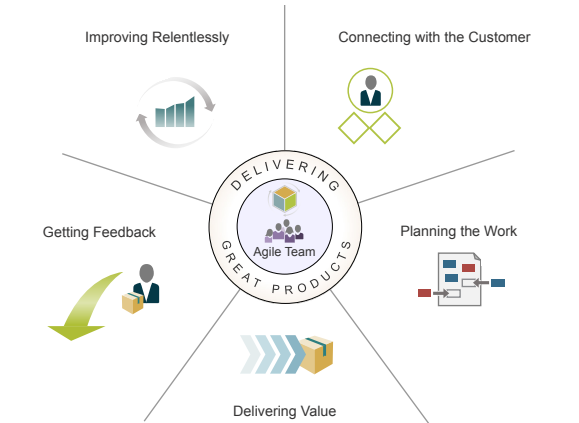

SAFe SCRUM MASTER/TEAM COACH

The SAFe Scrum Master/Team Coach (SM/TC) is a servant leader and coach for an Agile team who facilitates team events and processes, and supports teams and ARTs in delivering value.

AGILE TEAMS

An Agile Team is a cross-functional group of typically ten or fewer individuals with all the skills necessary to define, build, test, and deliver value to their customer.

PRODUCT OWNER

The Product Owner (PO) is the Agile team member primarily responsible for maximizing the value delivered by the team by ensuring that the team backlog is aligned with customer and stakeholder needs.

SAFe 6.0 UPDATED TERMINOLOGY

STANDARDIZE ART TERMINOLOGY

The terminology for program was replaced throughout the Framework with ART. Standardizing this terminology improves simplicity and clarity.

FROM	TO
Agile Program Management Office	Value Management Office
Program Backlog	ART Backlog
Program Board	ART Planning Board
Program Epic	ART Epic
Program Execution	ART Execution
Program Increment	Planning Interval

FROM	TO
Program Kanban	ART Kanban
Program PI Objectives	ART PI Objectives
Program Predictability Measure	ART Predictability Measure
Program Risks	ART PI Risks
SAFe Program Consultant	SAFe Practice Consultants (SPCs)

STANDARDIZE SOLUTION TERMINOLOGY

Solution Train artifacts and events were standardized.

FROM	TO
Solution Arc/Eng	Solution Architect
Solution Backlog	Solution Train Backlog
Solution Board	Solution Train Planning Board

FROM	TO
Solution Epic	Solution Train Epic
Solution Kanban	Solution Train Kanban
Solution PI Objectives	Solution Train PI Objectives

OTHER TERMINOLOGY CHANGES

Other terminology changes made for consistency are shown below.

FROM	TO
Daily Standup	Team Sync
Lean Systems and Solution Engineering	Lean Systems Engineering
Principle #6 - Visualize and Limit WIP, Reduce Batch Sizes, and Manage Queue Levels	Principle #6 - Make Value Flow Without Interruptions

FROM	TO
Scrum of Scrums	Coach Sync
ScrumXP	SAFe Scrum
