

# Scaled Agile Solutions for Higher Education

Agile Rising and Apptio partnered to provide a comprehensive enterprise agile planning solution for a large mid-western University's Scaled Agile software solution needs.

Apptio/Targetprocess' market-leading Enterprise Agile Planning capability is allowing the University to consolidate redundant tooling and scale agile across the enterprise. Apptio Targetprocess is driving enterprise agility by connecting teams, products, and portfolios to business objectives using a solution designed to work the way the University works.

Agile Rising's transformation consulting and tooling expertise is guiding the University in the design of Scaled Agile tooling approach with Apptio Targetprocess that aligns with Scaled Agile best practices and supports the way the University works.
